

## Please help to Build a page of 300 TRIZ Sites in the World

### -- Proposal (1) Toru Nakagawa

Professor Emeritus, Osaka Gakuin University, Japan

Dear TRIZ Leaders,

I am writing this message for asking for your consideration, help, and cooperation for the sake of TRIZ.

For these three decades, TRIZ has been proliferated widely in the world to the extent that various activities, achievements, and accumulated knowledge are not viewable easily.

We know that many (global/country-scale) associations, industries, consultancies, academic groups, individual persons are making their TRIZ-related works open in their Web sites.

However, the more abundant the works and individual sites grow, the more difficult it becomes recently for people to learn the overall view and to find good works useful for themselves.

A solution for releasing such a difficulty is to "**Build a page of TRIZ Sites in the World**" and to share it among many Web sites and to keep it up-to-date by the cooperation of many of you and your colleagues.

In 2008, I made such a page: "Extended 120 TRIZ Links in the World"

(See the attached gif figure and a pdf file.)

#### ■ TRIZ Links

##### Extended 120 TRIZ Links in the World

- (1) Japan,
- (2) North America,      (3) Europe,
- (4) Russia & East Europe, (5) Mid East,
- (6) Asia,      (7) Australia & Oceania,
- (8) Central & South America, (9) Africa
- (10) Others

I spent 4 full months for building it (and Links in Japan).

I could not update the page for these nearly 10 years.

If I would try to make this up-to-date at the same level, it would certainly take full one year.

And many good sites written in various languages other than English will be missed in the list.

Thus may I ask you for your favor?

- (a) Could you please join **an voluntary project of "Building a page of TRIZ Sites in the World"**?  
 --- This project is now named "World TRIZ Sites Project",
- (b) Could you suggest **any practical way to carry out such a project** at your local level as well as at the global level?
- (c) In a number of sites, **such a list of TRIZ Links** is already posted. So collecting them may be an initial step.
- (d) **Brief annotation of each TRIZ Site** is necessary for people to select links useful for themselves.  
 Please use the descriptions in my page as samples. Annotation may be detailed or short, depending on the extent, quality, usefulness, etc. of the site. At the end of annotation, please add your initial and the date of annotation.
- (e) Since 2008, many new sites have emerged and are working actively.  
 Thus probably, we will make **"Extended 300 TRIZ Sites in the World"** and also **"Selected 50 TRIZ Sites in the World"**.
- (f) Expecting to handle such a large number of sites, we will **need 3-4 co-editors and 1-2 technical supporting staff** in addition to **many people who actually visit and describe TRIZ sites**.
- (g) The scope may not (or should not) be limited to TRIZ in a strict sense. Important sites in **various areas around TRIZ** may also be collected and be shown in a special section in the page.
- (h) The vision behind this project is written in my proposal of  
**"Global Network of Public Web Sites in TRIZ: A Proposal for Building A Global TRIZ Community (3)"**, by Toru Nakagawa, ETRIA TFC 2010.  
<http://www.osaka-gu.ac.jp/php/nakagawa/TRIZ/eTRIZ/eforum/e2010Forum/ePublicSite2010/ePublicSitesProposal101027.html>
- (i) I am sending this email message to **95 TRIZ leaders of 33 countries/regions**, as listed in the csv file attached.  
 The list does not have any intention of excluding any other people who are voluntary to joining this project.  
 --- This list is not shown publicly. Instead a list of Project Members is to be shown in the public space, arranged in the order of their Regions/Countries.

I sincerely wish your understanding and cooperation.

Looking forward to hearing from you,

Best wishes,

Toru Nakagawa
